# Highlights

## **CMND&Control**

CMND&Control allows for remote configuration and installation of your TVs from a central location, without the need to visit any rooms. Update and manage all your displays with minimal effort, all without having to disturb your guests.

## **Built-in pay-to-view solution**

Offer pay-to-view content in any situation - from a complete pay-to-access-all-channels model to selected premium content. MyChoice is an integrated solution that allows viewers to access pay-per-view channels via a code or a card.

## **UI branding**

Your Philips Professional TV offers a clear, easy-to-navigate user interface (UI) that you can customise with your own branding. Easily add your logo or custom background to the menu to increase the visibility of your brand.

## **Instant initial USB cloning.**

Provides the ability to easily copy all programming and channel programming settings from one TV into other TV sets in less than a minute. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.

## **Mixed channel map**

One integrated channel list for digital and analogue channels. This allows the guest to flick seamlessly between Analogue and Digital channels.

## **USB auto playback.**

Share the fun. Connect your USB memory-stick, digital camera, mp3 player or other multimedia device to the USB port on your TV to enjoy photos, videos and music with the easy to use onscreen content browser.
